Office of the Insp. of Reception and Training Schools,
Macon, 10th September 1914.

J. H. MELVILLE,
Inspector of Reception and Training Schools, Macon.

FAILURE LIST

The following are the regular numbers of candidates of the Elementary grade who failed in, or were absent from the Preliminary Examination for Teachers' Certificates held in February 1911. The groups of subjects in which they have failed are noted against their regular numbers. Candidates who applied for only one part of the examination and failed were considered to have failed the whole part in which they had passed previously. Such candidates should appear for the full test at any subsequent examination. Candidates who applied for the whole of their failure will not be attended to.

1. All failed candidates are, under rule 147 of the Missouri Educational Rules, permitted to appear for the Preliminary Examination in any, under Part A only, for Part B only, or for the full test, according as they have failed in Part A only, Part B or Parts A and B as shown in the list. Candidates who appear only for Part A or B at the next examination and fail will not be permitted to apply for subsequent examinations only in those parts. They should take the full test.

2. Candidates who apply for a part only of the examination should pay the fee prescribed for the full test.

3. Any failed candidate who wishes to attend the Government Training School during the next term for additional instruction in the subjects of the examination may do so, as a free student for a period not exceeding four months. Application for admission should be made to the Inspector of the Code in which the Training School the candidate wishes to join is situated. Those who were trained in some other private management should get the permission of the authorities of such institutions for a similar additional period of instruction. The stipendary grant will be paid on account of such attendance.

125. Read, approved and recorded the minutes of the proceedings of the previous meeting held on Friday the 15th August 1912.

126. Read draft letter by the Chairman to the Chief Secretary to Government, Madras Department, recommending for sanction a reappropriation statement for an additional allotment of Rs. 4,320 required against votes of the Revenue branch of account.

Resolved that the draft letter be adopted.

127. Read a note by the Chairman recommending that a house-boat allowance of Rs. 40 per annum be granted to Mr. L. E. Shaw, L.A., B.N.H., Nottingham Marine of the dredger "Machina", from the date of the return to duty of Harbours Master R. W. Cooper, L.A., B.N.H.

Resolved that the house allowance be granted as recommended by the Chairman.

128. Read again Board Resolution No. 210, dated the 6th December 1910, adopting certain rules for the working of coal barges at the East Quay. Read also Resolution No. 730, dated the 14th February 1912, modifying the rules there referred to.

Read also Resolution No. 73, dated 7th July 1911, prescribing minimum daily shipments of exports for vessels at the Trust's quays.

Read a note by the Chairman, dated 21st August 1912, submitting the following set of revised rules for the working of vessels at the Outer, East and South Quays which are intended to supersede the rules there referred to.

1. All applications for vessels to be berthed at quays must be addressed to the Traffic Manager, in advance of the vessel's arrival.

2. A steamer which shall have been given access to a quay and then refuse to conform to these rules, for reasons judged by the Chairman to be inadequate, will thereby render herself liable to be refused the quay on her next applying for it.

3. (a) Should it have come to the Traffic Manager's notice that more than one vessel desires to work at a quay at about the same time, the vessel first signalled on the signal station will be given priority, provided her draught permits her to be lashed alongside, subject to the following exceptions.

(4) The exceptions to this rule are Government vessels, passenger steamers, vessels to load or to ship live-stock, and vessels taking minimum shipments of 500 tons of export cargo over a quay. These will be given preference in the order just named (see Board's Resolution No. 75 of 7th July 1911).

(5) The priority of use of a quay accorded to a steamer under these rules does not, however, secure to her a shore to quay. Such choice is dependent on the working arrangements adopted, and though Agents' and Masters' wishes will be accepted so far as possible, vessels will have to go where the Port Authorities see fit to berth them.

7. A quay will only be allotted to a general cargo vessel on the condition that her agents undertake to load over the quay all cargo which, in consultation with the Commissioner, the British Steamer is prepared to handle fast enough not to delay the steamer's discharge. In case of dispute as regards this condition the decision of the Chairman shall be final.

8. The following are the daily maximum quantities of different classes of cargo which must be discharged or shipped over a quay to enable a vessel to return the berth. In the event of a vessel's work over a quay being, for any one day, less than the quantities specified, with the exception of coal for which average quantities have been specified, the Chairman may call upon her to vacate the berth within 24 hours of the receipt of notice if another waiting vessel should desire access to it.

(1) A vessel discharging coal into barges at the East or Outer Quay may claim to be three for a point, calculated as days by dividing her whole registered tonnage of coal by 1,000 tons of the last number discharging part of each month's tonnage, her remaining tonnage — by 500 multiplied by the number of barge-ways containing her barge beach at the time — from which coal will be discharged.

(2) A coal vessel with over 1,000 tons of coal to discharge at Madras will be given priority of use of the East and Outer Quays before a vessel with less than 1,000 tons. Should the latter berthing at the East or Outer Quay when the former wishes to use it, she must quit the quay within 24 hours from the time when it is served, as last by the Port Trust.

(3) If a steamer wishing to use a quay has less than 1,000 tons of coal to discharge, her agents will, if possible, be warned of the date it is likely to be needed for an expected berth with over 1,000 tons to discharge.

(4) If, on the completion of her work at a quay, a steamer should be found to have dropped coal or other materials between ship and quay in quantities sufficient to injure the berth for succeeding steamers, the Trust will dredge away the material so dropped charging the steamer therefor at the rate of Rs. 10 per ton for such removal, on the basis of a total to have been dredged. Coal so dredged will only be returned to those who dropped it if it is available for use at the wharf of dredging; it will be otherwise in the Trust, as having been abandoned by the steamer.

(5) Export vessels will be liable to be called upon by the Trust to vacate a quay if their minimum shipments on any one day should fall below 500 tons.

(6) Vessels discharging between 500 and 1,000 tons at the East or at the Outer Quay must discharge, daily, a maximum of 2,000 cases from each beach from which the cases have to be discharged.

(7) Vessels discharging rough general cargo over quays must put out a minimum of 50 tons per hatch between 8 a.m. and 3 p.m. and 50 tons per hatch from 3 to 5 p.m.

(8) Vessels discharging fine general cargo over quays must put out a minimum of 150 tons per hatch per day from 8 a.m. to 5 p.m.

(9) Vessels discharging timber at the East, South or West Quay must put out a minimum of 75 tons per hatch per day for sleepers and 50 tons per hatch per day for scantlings, etc., based on measurement.

Resolved that the rules now proposed by the Chairman be adopted, and that the effect of them be watched and reported on, so early as they may at any time be altered in detail by a resolution of the Board, if they should not prove to work fully in the general interests of vessels desiring to use the quays.

240 Read a note by the Chairman, dated 31st August 1913, putting forward tentatively, pending further discussion, a scheme for providing merchants' warehouses with a store area of about 542,000 sq. ft. for the use of exporters.

Resolved that copies of the memorandum be sent for perusal of suggestions and criticism to both Chambers of Commerce, the Trades Association and firms of merchants likely to be interested.

251. Read again Port Trust Board Resolution No. 151, dated 1st August 1913, accepting Messrs. Best & Co.'s offer to rent out of their magazines at Kumbakonam to the Port Trust Board for the storage of fireworks for the public during the coming fireworks season. Read also the Chairman's correspondence on the subject with Government with a view to obtaining a license for the storage of fireworks in the magazine in question. Read also Resolution No. 155, dated 15th August 1913, approving certain rules and conditions for the loading and storage of fireworks in the godown proposed to be rented from Messrs. Best & Co.

Read G.O. No. 1728, Jubbulpur, dated 27th August 1913, refusing to accept the proposed arrangements and directing the Commissioner of Police to see that previous orders of Government in the subject are strictly enforced.

Resolved that the Government Order be recorded and that those concerned be informed of the effect made by the Port Trust to meet their necessities.

252. Read G.O. No. 779, Madras, dated the 15th August 1913, sanctioning an estimate amounting to Rs. 1,80,000 for a supply of wages to the Trust in compensation of that for Rs. 18,000, the deficit of which to Capital was maintained in G.O. No. 365, Madras, dated 23rd July 1913.

Resolved, subject to the sanction of Government which is necessary under section 86 of the Madras Port Trust Act, to request the Chief of Madras, Messrs. Best & Co., as contained in their letter No. C.W. 8-42457, dated the 8th August 1913, to deliver 50 high-wired wagons of the specified design free on rail at Mowbray at Rs. 4,425 each.

464. The following statement comparing Harbor dues collected is set up to the end of July 1868, with those for the corresponding period of the previous year, was ordered to be recorded:
